“ESLP” E & I Hangers

Prod Id	Turning Radius	Alloy	Weight per 100 pcs
ESLP-2	1 7/8"	SS-316	9 lbs
ESLP-3	2"	SS-316	13 lbs
ESLP-4	2 1/2"	SS-316	16 lbs
ESLP-6	3 3/4"	SS-316	22 lbs

PFS offers the ESLP type hanger which combines the versatility of the “ESL” type electrical slotted cable hanger (PFS Introduced in 1991) and the “SLP” type horizontal slotted pneumatic tube support (PFS Introduced in 1991) on the same device. The ESLP allows ease of installation which fastens to the 3/8 – 16 weld stud, the 3/8 – 16 Hilti X-BT stud, or any other fastener that will accept the female tapped 3/8 – 16 diameter ferrule located at the center of the support. Turn radius for the ESLP is identical to the ESL and SLP type. The ESLP is available in 2": (ESLP-2), 3": (ESLP-3), 4": (ESLP-4), and 6": (ESLP-6) lengths.

- The **ESLP-2** consists of one vertical slot with 2" of work space for electrical cable and two horizontal slots offering 1.62" from end to end work space for tubing.
- The **ESLP-3** consists of two vertical slot with 3" of work space for electrical cable and three horizontal slots offering 2.62" from end to end work space for tubing.
- The **ESLP-4** consists of three vertical slot with 4" of work space for electrical cable and four horizontal slots offering 3.62" from end to end work space for tubing.
- The **ESLP-6** consists of five vertical slot with 6" of work space for electrical cable and six horizontal slots offering 5.62" from end to end work space for tubing.

ESLP Versatility
